# A *Warm Welcome* to the 2025

Maryvale “Power in the Pedigree” **Black Thursday Sale** at 11am Thursday 13<sup>th</sup> February 2025 on property at “Maryvale” 1315 Marrabel Road Allendale North SA 5373 & online with A+.

While this season has tested many, we believe in focusing on the opportunities ahead and working together toward a strong future. Our goal is to support you with the best possible options, ensuring long-term success in even the toughest conditions.

We have thought long and hard about how we can help—and our answer is to give back to beef producers as much as we can. Introducing our **Black Thursday Sale**, designed to offer **real value** when it’s needed most. We are **lowering base prices**, providing **bulk-buying options** with **pick of the pair**.

If there’s something standing in the way of your purchase, let us know—we’ll do our best to help. These times will turn around, and when they do, holding on will have been worth it. For now, let’s keep moving forward together, focusing on the big priorities.

## *Our Big Rocks:*

## *Key Priorities for Success*

In challenging seasons, it is more important than ever to focus on the fundamentals that drive long-term success. Here are the key traits we prioritize:

✔ **Fertility** – We are pleased with how well our cow herd has held up through tough conditions. Pregnancy rates have remained strong, and our sale bulls have passed semen testing exceptionally well—even after a dry, difficult autumn with a late break and minimal growing season rain.

✔ **Calving Ease** – Most of our bulls offer outstanding calving ease, short gestation lengths, and low birthweights, ensuring smoother calving and stronger, healthier calves.

✔ **Growth** – With the right nutrition, we aim for calves to maximize growth from day one, setting them up for strong performance.

✔ **Carcass Quality** – We prioritize cattle with excellent EMA, high-value cuts, and superior eating quality to meet market demands.

✔ **Feed Efficiency** – Dry conditions reinforce the importance of feed efficiency. Cattle that maintain body condition through tough times are more likely to get back in calf and perform consistently.

✔ **Feet & Legs** – We understand the importance of sound structure and free movement with good feet. Walking our cattle 10km in an hour gives us great insight.

✔ **Docility** – We have been taking docility seriously for nearly 40 years. The benefits of improved temperament are widely recognized for their role in enhancing herd efficiency and profitability.

By focusing on these key traits, we ensure that our cattle continue to deliver value, resilience, and productivity—even in the most demanding conditions.

## *Quality Genetics on Offer*

◆ **70 Quality Angus, Limousin & Limflex Bulls** –sired by the best we can find globally. Angus Bulls by breed legends such as **VARILEK GEDDES, LANDFALL NEW GROUND, TEXAS POWERPLAY & STERLING PACIFIC**. The younger Angus bulls from Lot 51 onwards will be sold as a Pick of the Pair. You can choose to take one or both of the bulls in the pair. Value buying to suit pastoral clients.

◆ **Angus Heifers Pick of the Pen** –The heifer lots will be sold in two groups of five, with a Pick of the Pen; take all five or take your pick. Five are PTIC, with some AI to **Texas Top Shelf** and **Meyers Fair-N-Square**, then running with **Glatz S32**. (Lots 1 & 2)

◆ **Elite Angus Embryo Lots** ✦ Our **Texas Iceman heifers** have exceeded expectations in growth, carcass quality, structure, and docility. Paired with **Texas Top Shelf T301**, these embryos offer some of the finest Angus genetics available. (Lot 77) ✦ If we could design the ideal Angus cow, **Millah Murrah Flower N317** would come close to perfection in phenotype. To complement this, **Meyers Fair-N-Square** adds exceptional data and positive traits. (Lot 78)

◆ Release of sought after **Limousin Semen**, featuring TMF Westwood, RLF Yardley, MV Hammertime & Birubi Jupiter. (Lots 79-82)

*"Very happy with our Maryvale Angus bulls, they got straight into getting the job done, plus our 8m old Maryvale offspring topped the Roma market!"*  
*Client Quote 2024*

Maryvale cattle are packed full of quality genetics and are renowned for longevity, docility, and great feet. Raised in the Mid North of SA growing up on winter pasture and summer stubble, polished up for sale with a silage feed mix from December. Semen tested with very high fertility & ready to work. Welcome to talk to us about your requirements.

**Sale Date: Thursday 13th February 2025**

**1315 Marrabel Road Allendale North SA 5373**

**Sale at 11.00am – Inspection from 9.00am (or by appointment)**

**50 Angus Bulls ~ 15 Limousin Bulls ~ 6 Lim-Flex Bulls**

**~ 10 Angus Heifers ~ 2 Elite Angus Embryo Lots**

**~ 6 Limousin Semen Lots**

# **BLACK THURSDAY SALE**

## **LOTS**

1 - 2 = Angus Heifers

3 - 26 = Angus Bulls

27 - 42 = Limousin Bulls

43 - 48 = Lim-Flex Bulls

51 - 76 = Angus Bulls (Pick of the Pen)

77 & 78 = Angus Embryos

79 - 82 = Limo Semen Straws

## **PICK OF THE PEN**

✦ The heifers will be sold in a Pick of the Pen scenario (take one or take them all, sold as \$ per head):

Pen 1 – Lot 1a, 1b, 1c, 1d, & 1e (5 PTIC Heifers)

Pen 2 – Lot 2a, 2b, 2c, 2d, & 2e (5 Heifers)

✦ The Angus bulls from lot 51 to 76 will be sold as Pick of the Pen (take one or both, sold as \$ per head)

Embryo/semen lots will be sold as \$/unit

**Sale Information** – Nutrien Stud Stock & Nutrien Beaton Agencies will be facilitating the sale for us on property by Auction with all cattle present onsite in holding pens for easy viewing. Visitors can enter pens at their own risk. Please register with Nutrien prior to the start of the sale, or with AuctionsPlus in advance for online purchasing. Videos of every lot and A+ links at [www.maryvalestock.com.au](http://www.maryvalestock.com.au) to bid online. Animals are sold exclusive of GST. The heifer lots will be sold in two groups of five, with a Pick of the Pen; take all five or take your pick. The Angus bulls from Lot 51 onwards will be sold as a Pick of the Pair. You can choose to take one or both of the bulls in the pair. To operate on an offering, you must select a minimum of one (1) lot within the pen in order to bid. At the fall of the hammer, highest bidders must confirm their selection of the pen. Lunch will be provided after the sale. Whilst every care has been taken to ensure all details presented in this catalogue are accurate and correct, we cannot guarantee that the content is free of any errors or omissions.

**Phone Bidding – Key contacts** (Interstate bidders please note we are on SA Central Standard Time) Phone Bidding can be arranged in advance by contacting Tess Vogt 0428 105 373 or one of the following key contacts within Nutrien:

**Greg Beaton – Nutrien Beaton Agencies Kapunda SA – 0428 847 510 or 08-85662004**

Gordon Wood – Nutrien Stud Stock SA - 0408 813 215

Andrew Wilson – Nutrien SA 0439 354228

Peter Godbolt – Nutrien Stud Stock – Vic/NSW – 0457 591 929

Richard Miller – Nutrien SA – 0428 849 327

John Settree – Nutrien Livestock Sales - NSW – 0408297368

Simon Aldridge – 0408 181154

**Rebates to outside agents** - We appreciate the strong support that has been shown to us by Nutrien and many other agents over the history of our stud. **A 6% rebate available to all outside agents** purchasing stock at the sale of behalf of clients. Outside agents must introduce the clients to us in writing 24 hours before the start of the sale to be eligible for the 6% rebate.

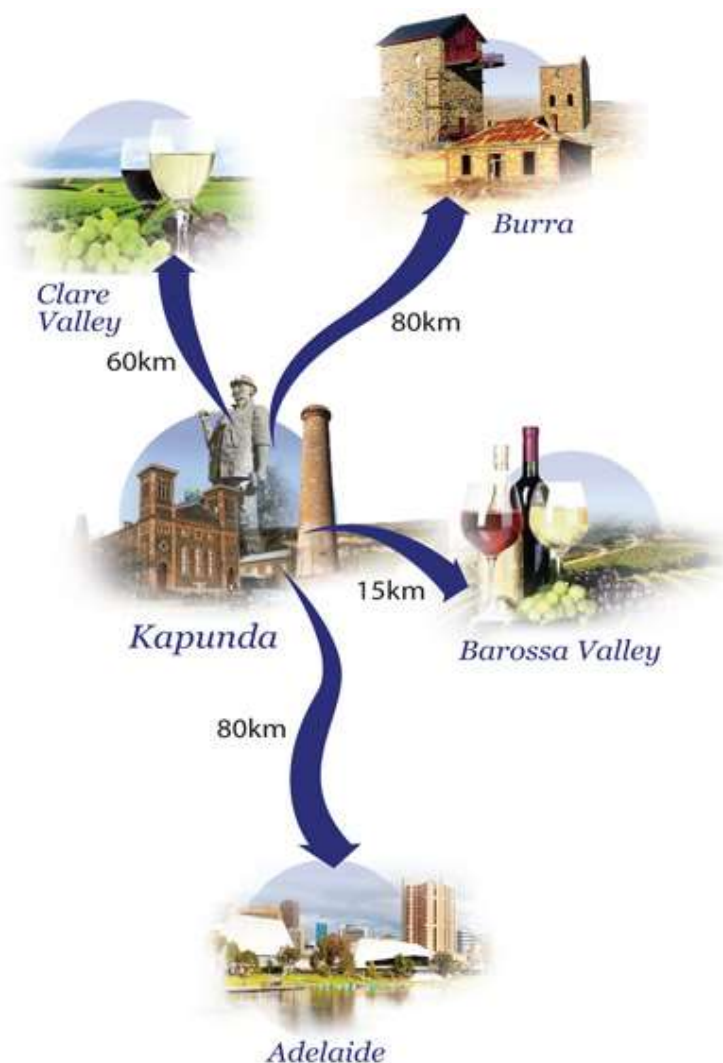

**Insurance** - Animals will become the responsibility of the purchasers at the conclusion of the sale. We recommend insuring your animals for a 3, 6, or 12 month period at the conclusion of the sale. Insurance can be arranged with the Agents as required.

**Herd Health** – Maryvale is EU accredited, J-BAS8, bulls have been semen tested, vaccinated with 7in1, against Vibriosis and Pesti-virus and given selenium. No animals have been hoof trimmed.

**Fertility** - As with any species fertility can be a problem. This is why Maryvale undertake a semen quality and visual analysis on all sale bulls (conducted by Nationwide Artificial Breeders). The visual analysis is a physical examination of external genitalia and conformation. This identifies any injuries, penile warts, hair rings, penile frenulums, penile infections and any other abnormality. The semen test involves microscopic analysis for motility (% live sperm), concentration (total per ml), morphology (% abnormal) and semen infections such as seminal vesiculitis. The information provides the potential testicular and epididymal function which helps predict the fertility of the bull. Only bulls that pass these tests are certified and make the sale. The purchaser is recommended to observe correct technique and thrust while in service. External factors can impair semen quality, please refer to certificate provided upon request.

**Freight & Travel** - We are willing to hold animals for a reasonable period after the sale to enable purchasers to coordinate the successful and efficient transport of animals home to their properties. We can provide recommendations of suitable stud stock carriers and will assist wherever we can to ensure the safe and efficient transport of animals to your property. Please contact Matt Vogt on 0407 959 837 in regard to the freight and transport post sale.

**Accommodation** - Our GPS address is 1315 Marrabel Road Allendale North SA. Our property is located 10 kilometres North of Kapunda on the road to Marrabel on the Eastern side of the road. We are located approximately 1.5 hours North of the Adelaide Airport. The Kapunda airstrip adjoins our property and light planes are most welcome to use it. We will happily pick you up and loan you a vehicle during your stay. We are located between the two small townships of Allendale North and Hamilton. Our property has a “Maryvale” sign on the main road. Accommodation is readily available in Kapunda and the Barossa (25kms from us) and Clare Valleys are nearby which are both very renowned areas of attraction.

*Congratulations & Thank you to the Hearnden Family*

A stylish black Limousin bull stole the show at Maryvale's Allendale North on-property sale on Thursday 8th February 2024. Purchased by Hearnden Limousins, Mount Pleasant, the \$19,000 Limousin bull was 19 month-old, homo black, homo polled, Maryvale Turnout AMSPT339. He covered all of the bases with his type and structure data and was sired by the popular Balamore Endeavor 701E, out of Maryvale dam, Remake AMSPR36.

*8/2/24 Maryvale Turnout AMSPT339 Sold for \$19000-*

12 Straws Semen - Maryvale Hamertime the renowned sire valued for his easy calving, short gestation, and proven performance. Described as having a 'wonderful influence on the Limousin breed,' Hamertime delivers industry-relevant genetics that bring more profit where it counts. Among his many achievements, he sired the 2 winning teams at the 2020 Gate 2 Plate WA competition, for Most Profitable and Best Feedlot Performance. Elevate your herd with these game-changing genetics today!

\* The percentile band represents the distribution of EBVs across the 2023 drop Australian Angus and Angus-influenced seedstock animals analysed in the Mid January 2025 Trans Tasman Angus Cattle Evaluation

# Angus Australia - Embryo Catalogue Results

Expected average progeny values are provided to assist breeders estimate the outcome of particular embryos. The actual TransTasman Angus Cattle Evaluation EBVs for any calves resulting from a particular embryo are likely to vary from the expected average values.

## EXPLANATION OF ESTIMATED BREEDING VALUES

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured. EBVs are provided for the following traits:

**Calving Ease Direct:** estimates the differences in the ability of a sire's calves to be born unassisted from a 2-year-old heifer.

**Gestation Length:** ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs.

**Birth Weight:** indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

**200, 400 & 600 Day Weight:** give us an estimation of the animal's genetic potential for growth.

**Mature Cow Weight:** estimates differences between animals in live weights of cows at 5 years of age.

**Milk:** a key component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

**Scrotal Size:** indicates whether the bull will produce sons with above average or below average scrotal sizes.

**Carcase Weight:** ranks animals for carcass weight.

**Eye Muscle Area:** ranks animals for eye muscle area measured at the 12th rib on a 300kg carcass.

**Rib Fat:** ranks animals for rib fat depth at the 12th rib on a 300kg carcass.

**Rump Fat:** ranks animals for fat depth at the p8 site on the rump on a 300kg carcass.

**Intra Muscular Fat:** ranks animals for the percentage of intramuscular fat at the 12th rib of a 300kg carcass.

**Docility:** is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

**Comparing EBVs:** The EBVs for Limousins cannot be compared with EBVs for animal of other breeds. They should be compared with the current average EBV for the Limousin breed shown below.

Breed Average EBVs for 2021 Born Calves														
CED	GL	BWt	200	400	600	MCW	MLK	SS	CWT	EMA	RIB	RMP	IMF	DOC
+0.5	-2.1	+1.7	+21	+35	+49	+49	+7	+1.1	+31	+1.8	+0.0	-0.1	+0.0	+43

**Accuracies:** Accuracies are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives.

**Disclaimer:** The Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither the Australian Limousin Breeders' Society or ABRI oversee or audit the collection of this data.

## EXPLANATION OF THE SUFFIXES TO ANIMAL NAMES IN THIS CATALOGUE

LIMOUSIN SUFFIXES			
Trait	SUFFIX	STATUS	STATUS ARRIVED AT BY Details available for individual animals on Limousin database Animal Details page
Horn status	PP	Homozygous polled	DNA test confirmed homozygous polled, or Animal is homozygous polled by pedigree as both parents are confirmed homozygous polled, or Animal is confirmed homozygous polled by progeny analysis process.
	P	Polled	DNA test confirmed heterozygous polled, or Animal is untested, information was provided by breeder.
	Ps	Polled with Scurs	Identified by details provided by breeder at time of registration, or DNA test confirmed heterozygous polled and breeder information indicates animal shows scurs.
	H	Horned	DNA test confirmed horned, or Animal is untested, information was provided by breeder.
Coat colour	BB	Homozygous black	DNA test confirmed homozygous black, or Animal is homozygous black by pedigree as both parents are confirmed homozygous black. Animal is confirmed homozygous black by progeny analysis process.
	B	Black	DNA test confirmed heterozygous black, or Animal is untested, information provided by breeder.
	R	Red	Identified by details provided by the breeder.
	A	Apricot	Identified by details provided by the breeder.
	O	Other	Identified by details provided by the breeder.
F94L gene	AA	F94L 2 copies	DNA test confirmed animal carries 2 copies of the F94L gene, or Animal carries 2 copies of the F94L gene as both parents carry 2 copies of the F94L gene.
	AC	F94L 1 copies	DNA test confirmed animal carries 1 copy of the F94L gene.
	CC	F94L 0 copies	DNA test confirmed animal carries no copies of the F94L gene.
	U	F94L Status unknown	Animal is untested and parent status is unknown.
Lim-Flex	LF	Lim-Flex	Animal is identified as Lim-Flex by pedigree details in line with ALBS regulations.

# DISCLAIMER AND PRIVACY INFORMATION

## Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

## Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV : both parents have been verified by DNA.

SV : the sire has been verified by DNA.

DV : the dam has been verified by DNA.

# : DNA verification has not been conducted.

E : DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

## Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

.....

### BUYERS OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO ANGUS AUSTRALIA

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following ident's.....

.....

from member.....(name) do not consent to Angus Australia using my name, address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Name: ..... Signature: .....

Date: .....

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350.

# Bull Management & Taking Delivery of your New Bull

## Taking Delivery of your New Bull

To help your new bull or bulls settle into their new home as quickly as possible, the following points may be of some help.

- All Maryvale bulls have been run in large mobs most of their lives, so they've always had plenty of mates around, and have "never" been alone.
- It's a good idea to **have some of your own cattle in the yards** when your new bull/s arrive, a handful of steers, or PTIC cows or even an old bull; just something to keep them company, whilst they survey their new surroundings.
- At Maryvale, we handle our cattle quietly and confidently, we always show our cattle respect, and our cattle respect us. We generally use a motorbikes to yard and handle the bulls. The bulls have not been handled with horses or dogs.
- Handle your new bull/s quietly and with respect and he'll settle into his new home well, and will be easy to handle whenever the need arises.

## Bull Management

Maryvale would like to make some suggestions to assist your newly purchased bull to settle into his new environment and also provide some general bull management tips.

### SETTLING IN:

- The majority of bulls have been running in a large mob.
- Once unloaded, ensure he has company (eg cow or steer) and plenty of food in front of him, until he is able to be placed into his mob.
- Don't box bulls up too much – the majority of breakdowns are caused in the bull paddock when new bulls are directly added to an existing group of bulls.
- Be aware that it is a new environment to them and some time in the yards may be required.
- Remember the pecking order scenario with other bulls – the newest addition may receive a hard time for a little while. Perhaps run bulls alongside each other for a while before running them together.
- They are used to being treated in a gentle manner and will respond accordingly and should be treated with respect and kindness.

### JOINING TIME

- All bulls should be serving ability tested each year to ensure they are sound, prior to going out for mating.
- Once they are out working, please check them regularly to make sure they have not had a breakdown or moved paddocks etc. This practice is essential!
- Always put a back up bull in for a couple of weeks in single mating situations to cover yourself against bull failure.
- Don't mate bulls with horns and polled/dehorned bulls together. Single mating is preferred. If multiple joining, put in bulls that have been together prior to joining and ensure they are roughly the same age, weight, and size.

### AFTER JOINING

- Try and split bulls up, particularly if you have a large number of bulls. If finding suitable paddocks is a problem, consider running mature bulls with sheep to allow this split up.
- After taking them out of their joining mobs, provide plenty of feed in front of them. This will ensure minimum fighting.

### DELIVERY

**Matt Vogt 0407 959 837**

will work with you on your purchases to arrange suitable and safe delivery wherever in Australia or the world you may be.
